Performance notes

On Microtonality:

The MIDI keyboard is running a microtonal Max/MSP patch which uses a tuning system dividing the octave in 17 equal parts. The notation used for this corresponds to two parallel systems, one for the keys the pianist will be performing and the other an approximation of what will be heard.

On bar 305, the second Violin is playing a slightly low A \flat , not enough to be a quarter tone, ideally an eighth tone. All the accidentals with arrows mean that the notes are slightly out of tune but not enough to reach a quarter tone.
